

Email RE: Revelation #31
Date: July 18, 2018

Ladies and Gentlemen:

Our Revelations usually address a financial abuse.

But here we recognize that city corruption which disproportionately impacts the least affluent (LA) in our community is also found at SAHA whose mission is to serve LA citizens.

Typically, we complain of corrupt practices in unelected bureaucracies managed by City Manager Sculley whom you do not manage; but ironically, SAHA's manager is your Council.

No passing the buck here; this is a Council failure to manage.

Until next time,

Stan Mitchell
