

**Subject: SEC Complaint Letter dated November 28, 2018, attached -- Revelation #37**

**Date:** November 28, 2018 at 4:45:52 AM CST

**LADIES AND GENTLEMEN,**

Attached is the ninth in a series of letters to the Fort Worth Regional Office of the Securities and Exchange Commission through which we have initiated and then refined a Complaint based on **"Our thesis —**

**We concerned citizens of San Antonio cannot make our corrupt city government accountable because that tyranny has forecast debt rating downgrades (the alleged consequences of our citizen action that would limit government powers) and then, with impunity, concealed and misrepresented Fitch's, Moody's and S&P debt rating documents. Our effort to change our governance in reaction to its corruption, is impeded by the city's further corrupt acts."**

Subject letter exposes the colluding triad undergirding the city government's self-perpetuating power.

Our City Charter says, "The city manager shall be **responsible to the council...**"

Our Council's nonfeasance says, "The council is **responsible to the city manager...**"

**STAN MITCHELL**
