

**JANUARY 14, 2019**  
**REVELATION 40 – EMAIL TO COUNCIL FROM STAN MITCHELL**

**URGENT**

**Ladies and Gentlemen of our City Council,**

**Revelation #40** attached analyzes the December 28 Express-News article by Rye Druzin, "San Antonio's CPS Energy may be closer to a price increase." His exposure of the accounting legerdemain by President Paula Gold-Williams (a CPA who is especially culpable because she knows exactly what she is doing) further mars her credibility, embarrasses CPS Board Chair Ed Kelley, reaffirms the corruption which is endemic among the unelected bureaucracies of the city under Sheryl Sculley's leadership, and lands in your lap.

Your Council has been designated by the State P.U.C. as CPS' regulator. You have evidently failed because we are left to ponder, "Who's accountable here?" We elected you; we did not elect Sculley or Kelley or Gold-Williams.

This email is **URGENT** because you are in the process of selecting finalists from among whom you will choose our next City Manager. Will your list include someone who has the financial expertise to surface this **Revelation #40** issue and prevent it, thereby protecting you from being tagged perpetrators of Ms. Sculley's financial swamp? Will our new City Manager have the integrity to speak truth to power, thereby serving the people who pay his/her salary?

We are watching!

(Copies of this email are being sent via USPS to Ms. Gold-Williams, Mr. Kelley and Mr. Druzin because their email addresses are not available).

Sunshine is an excellent disinfectant.

**Stan Mitchell**
